

NOTE: The below numbers are up to date as of July 8, 2020 at 10:00AM

1. By grade level, how many students has your school been unable to make any contact with since statewide school closures began on March 16? This includes students who have not picked up and/or returned assignments and that teachers/school leaders have been unable to make contact with. Please ensure that students are accounted for only once in these totals.
