Columbia, SC 29201

Re: SCDOT 2021 Annual Report

Dear Chairmen:

On behalf of the South Carolina Department of Transportation (SCDOT) please accept the Agency's submittal for the "Annual Report" for 2021. Pursuant to SC Code of Law, **Section 57-3-760** SCDOT is required to provide this report to the General Assembly. In conjunction this Annual Report satisfies the condition of the **2017 Act No. 40, Section 57-1-380** requiring SCDOT to provide and publish an annual update on achieving the TAMP performance goals. The 2021 Annual Report submittal meets both of these requirements.

Additionally, prior to 2015, SCDOT was granted through Proviso 117.72 (D) the opportunity to combine the statute-required Annual Report (Section 57-3-760) and the Mass Transit Report (Section 57-3-40) into the Annual Accountability Report. In 2014, the Annual Accountability Report was streamlined and was no longer able to contain the "Annual Report" nor the "Mass Transit Report." The Mass Transit Report will be sent at the appropriate time under separate letter.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Christy A. Hall, P.E.  
Secretary of Transportation

CAH:scj

Enclosure

cc: Henry D. McMaster, Governor of South Carolina  
South Carolina General Assembly

# Annual Report

January 2021 - Reporting on State Fiscal Year 2020

As one of the five largest state agencies in South Carolina, the South Carolina Department of Transportation (SCDOT) has approximately 4,500 men and women who work across the state in all 46 counties, with the central headquarters located in Columbia. The agency's purposes include planning, construction, maintenance, operation of the state highway system, and the development of a statewide intermodal and freight program.

The COVID-19 pandemic has created unprecedented challenges for government, businesses, communities, and families. While this has been a challenge for SCDOT over the past year, our mission remains clear: to build and maintain roads and bridges and provide mass transit across the state. We have a long history of stability navigating through extraordinary events. We stand well-positioned to remain stable through this turbulent time.

SCDOT is responsible for maintaining approximately 41,300 miles of road (90,000+ lane miles) and more than 8,400 bridges. South Carolina has the 4<sup>th</sup>-largest state-maintained highway system in the nation while serving the 6<sup>th</sup>-fastest population growth rate in the nation. The state-owned highway system in South Carolina is shown in the figure to the right.

To help govern the authority of SCDOT, nine-members make up the State Transportation Commission with one member from each of the seven (7) Congressional Districts and two (2) at-large members. They appoint the Secretary of Transportation, with the advice and consent of the Senate. The Secretary is charged with the affirmative duty to carry out the policies of the Commission, administer the daily operations of the agency and provide direction to staff.

**Our Mission**

• • •

*“SCDOT shall have as its functions and purposes the systematic planning, construction, maintenance, and operation of the state highway system and the development of a statewide intermodal and freight system ... the goal of the Department is to provide adequate, safe, and efficient transportation services for the movement of people and goods.”*

(SC Code Section 57-1-30)

## SECTION I- AGENCY ACCOMPLISHMENTS

During the 2019-2020 fiscal year, SCDOT accomplished many milestones in “Year Three” of the Ten Year Plan and earned major achievements and awards. These successes reflect the strong leadership and the hard work of the SCDOT employees. Below are a few SCDOT highlights:

- SCDOT’s Engineering Technology and Research Office won the **2019 Winner of the Year in Infrastructure Awards** in the Project Delivery category in October 2019. The International award was presented for the ProjectWise© program that allows seamless information to be shared and integrated across multiple platforms.
- Inclement weather in February 2020 impacted the upstate area with **Severe Flooding** resulting in 247 road closures. SCDOT staff worked tirelessly to reopen roads.
- April 2020 brought with it **Twenty-five Tornadoes** – Extensive damage in Hampton, Colleton and Oconee Counties required SCDOT maintenance crews and assistance crews from neighboring counties for clean-up and debris removal.
- SCDOT’s **Division of Minority and Small Business Affairs** hosted three outreach meetings in February 2020 for minority and Disadvantaged Businesses to gain input on doing business with SCDOT as potential contractors or suppliers. Approximately, 150 individuals and 57 DBE firms attended the meetings held in Columbia, North Charleston, and Spartanburg.

---

## SECTION II- Delivering Results with the 10-Year Plan

Our task over the next 10 years and beyond is to repair and rebuild our transportation network to ensure that our citizens and businesses can travel on a safe and reliable system. This is a core function of government, and SCDOT is entrusted with the responsibility to effectively and efficiently utilize tax payer funds to turn the status of the state-owned transportation network around.

With infrastructure that includes, but not limited to, over 700,000 signs currently installed on our state’s highways, over 90,000 lane miles (or 41,000 center-line road miles), and over 8,400 bridges, perpetual maintenance is a daily operation. For perspective, in the 365 days of fiscal year 2019-2020, SCDOT:

- *Received and processed approximately 86,300 work requests (avg. more than 236 daily);*
- *Patched approximately 679,300 potholes (avg. more than 1861 daily);*
- *Mowed approximately 155,400 acres (avg. more than 426 daily);*
- *Removed 5.72 million pounds of litter/debris (avg. more than 15,671 daily); and*
- *Approved 12,391 encroachment permits (avg. more than 34 daily).*

SCDOT has developed and implemented multiple transportation planning documents, to include the Strategic Plan, the Multimodal Transportation Plan, Transportation Asset Management Plan, and the Statewide Transportation Improvement Program. We are focused and understand the expectation of a safe and reliable system found in the three plans and one program on the following page:

**1. Strategic Plan** is the overarching guide of our transportation vision, mission, values, and goals. The SCDOT Strategic Plan is not just a plan, it is OUR plan. This is a multi-year plan that was provided to all employees (over 4,500 employees), and is continually presented to new employees at New Employee Orientations, which are typically held twice a month. There are 5 goals:

- 1: **Improve safety** programs and outcomes in our high-risk areas.
- 2: **Maintain and preserve** our **existing** transportation infrastructure.
- 3: **Improve SCDOT program delivery** to increase efficiency and reliability of our road and bridge network.
- 4: **Provide a safe and productive work environment** for SCDOT employees.
- 5: **Earn public trust** through transparency, improved communications, and audit compliance.

It is located at: [https://www.scdot.org/performance/pdf/Strategic\\_Plan\\_Overview.pdf](https://www.scdot.org/performance/pdf/Strategic_Plan_Overview.pdf) .

**2. Multimodal Transportation Plan (MTP)** is a 20-year long-range plan that identifies statewide, multi-modal needs, forecasts investment levels, and estimates annual funding gaps. A key part of updating this plan was to establish a meaningful strategic direction to drive multimodal investment decisions. It considered the performance and transportation asset management principles for all modes of transportation, like roadways, bridges, freight, mass transit, ports, bike/pedestrian, rail, and intercity bus.

This is a 20-year plan that is updated every five-years to reflect the latest information on travel and growth trends, goals and objectives, safety and security, infrastructure conditions, future deficiencies, and estimated funding, as well as the latest federal requirements. The current plan has a 20-year horizon and will be placed on the agenda for approval in September 2020, pending no substantial comments. It is located at: <https://www.scdot.org/multimodal/>.

**3. Transportation Asset Management Plan (TAMP)** is a 10-year plan that focuses on programs and activities to improve business practices, asset conditions, and system performance. The TAMP ties infrastructure investment to a predicted return on that investment by listing the major infrastructure assets by type. SCDOT is charged with managing transportation assets for South Carolina and has adopted transportation asset and performance management as a best management practice for all of its programs. Tying a planned investment level to a predicted outcome is a major shift in the way SCDOT manages its programs and is essential to earning the public's trust through the effective deployment of resources to achieving results.

This is a 10-year plan that is reviewed at two-year intervals to evaluate performance targets and sets the agency's asset investment strategies. The current plan was approved in 2019, and is located at: <https://www.scdot.org/inside/tamp.aspx> .

For accountability purposes and fulfilling Section 57-1-380, SCDOT has chosen to publish "an annual update on achieving the TAMP performance goals to the General Assembly and the public" as part of this report. On the following page is the annual update of the TAMP.

## Transportation Asset Management Plan (TAMP) Performance Targets

												Year Three				Updated June 30, 2020	
Safety			2016 Baseline Condition			10-Year Target			2019 Interim Target		2019 Actual Values		Average Annual Funding Level	Commission Approval Date

Bridge Programs			2016 Baseline Condition			10-Year Target			2019 Target (Cumulative)		2019 Actual (Cumulative)		Average Annual Funding	Commission Approval Date			
Load Restricted & NHS Structurally Deficient Bridge Program			465 bridges load restricted or structurally deficient			465 bridges replaced, repaired or permanently closed			140 bridges replaced, repaired or permanently closed		150 bridges replaced, repaired or permanently closed		<b>\$36.5M</b>		April 2018		
Total Average Annual Funding												<b>\$151M</b>		April 2018			

Pavement condition based on Pavement Quality Index (PQI).

NFA Secondary annual funding of \$121M includes estimated \$39M in CTC spending.

\*Bridge conditions based on Federal Metrics.

Bridge Program Numbers are bridges complete and under construction.

The average bridge project takes 3 to 4 years to design and get to contract, therefore, we will not see significant drops in the number of load restricted and structurally deficient bridges until year 4 and 5 of the 10-year plan.

## Proposed Ten-Year TAMP Budgets

Category	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	Ten-Year Average
Safety*	\$ 46,768,651	\$ 97,704,024	\$ 98,658,105	\$ 99,631,267	\$ 99,631,267	\$ 99,631,267	\$ 99,631,267	\$ 99,631,267	\$ 99,631,267	\$ 99,631,267	\$ 94,054,965
Pavement	\$348,280,000	\$ 401,800,000	\$ 417,000,000	\$ 487,000,000	\$ 562,000,000	\$ 642,000,000	\$ 702,000,000	\$ 702,000,000	\$ 702,000,000	\$ 702,000,000	\$566,608,000
Bridge	\$111,250,000	\$ 180,000,000	\$ 170,000,000	\$ 145,000,000	\$ 145,000,000	\$ 145,000,000	\$ 145,000,000	\$ 145,000,000	\$ 145,000,000	\$ 145,000,000	\$147,625,000

\*Includes a minimum \$50M annually for the Rural Road Safety Program effective FY 2018.

**4. Statewide Transportation Improvement Program (STIP)** is the state’s 6-year improvement program for all projects or programs receiving state or federal funding. The STIP includes all projects or program areas that are to receive federal funding, including pavements, bridges, upgrades, freight, safety, congestion mitigation and air quality (CMAQ), transportation alternatives program (TAP), railroad crossings, planning, State Transportation Infrastructure Bank (STIB) payments, preventative maintenance and operations, and public transportation.

This is a six-year transportation improvement program that is reviewed every three years but is also revised on a continual basis to reflect the latest program and project information. The current plan will be reviewed in 2022. The STIP is located at: <https://www.scdot.org/inside/planning-stip.aspx>.

South Carolina has a very large road system that has a continuous need to tackle safety, deferred maintenance, and congestion needs across the state. Thanks to the South Carolina General Assembly and the infusion of approximately \$600 million annually in new state funding dedicated to SCDOT through the passage of Act 40 of 2017, SCDOT has strategically aligned all of the agency’s infrastructure repair and improvement efforts in the plans and programs mentioned in the previous section into a *10-Year Plan*.

The 10-Year Plan is a comprehensive investment strategy for the delivery period of 2016 through 2026. The funding for this plan comes from a phased-in gas tax, increasing 2 cents per year over a 6-year period, for a total of 12 cents. The gas tax was 16.75 cents prior to the passage of the Roads Bill in 2017; as of July 1, 2020, the state gas tax is at 24.75 cents, which represents the start of the fourth year of the phased-in gas tax increase.

The new gas tax is being put to work. In South Carolina, 1 penny of gas tax generates approximately \$34 Million for SCDOT. To illustrate, one penny would pave 100 miles of 2-lane roads. This might sound like a lot, but in actuality *100 miles is less than ¼ of 1 percent of the entire system* which has decayed *severely* over the past 30 years. At the end of 2019, SCDOT estimated that over 31,000 miles need paving – this is almost 75% of our existing system.

SCDOT has significantly increased its work program by tripling its construction program from \$1B per year to over \$3 Billion in construction projects statewide. *Progress is being made* to address a 30-year backlog of deferred maintenance, but there is much more to do because we are digging out of a very deep hole. There is still much work to be done. Currently, we are entering “**Year Four**” of the Ten-year plan. Results below from “**Year Three**” continue to show a successful movement in the right direction for important infrastructure items that have been completed or advanced to contract:

- **SAFETY/RURAL ROAD:** SCDOT is investing \$50 million a year to specifically target rural roads for safety projects. **SC ranks #1 for Rural Fatality Rates in the nation.** Nearly 30% of the state’s fatalities and serious injury crashes occur on just 5% of our network ... our rural roads. Our target is to address

100 miles a year. ***Our ten-year target of 1,000 miles for rural road safety improvements is ahead of schedule with 465 miles of Rural Road Safety Projects completed or under contract.***

- **PAVING:** SC has a large network of roads that had been neglected for three decades. Intentionally, our Strategic Plan (Goal 2.2.) tracks the progress of our Pavement Program, in which *every county has been guaranteed paving projects*. The pavement quality of the state’s “major roads,” which carry the vast majority of daily traffic, has improved to 42% rated in “good” condition, an increase of 19% since 2016. ***Our ten-year target of improving 3 percent of the network per year is on target with 3312 miles of paving completed or advanced to contract.***
- **BRIDGES:** South Carolina’s bridges are vital links in the transportation system. Our goal is to move towards having no load restricted bridges in the state over the next 10 years. We will also tackle the structurally-deficient bridges (also referred to as “poor”) that we have on the National Highway System. 109 bridge projects are completed and 41 are under construction. ***Our ten-year target of replacing 465 bridges is on target with 161 bridges completed or under contract.***
- **INTERSTATES:** SC is booming and our economy is dependent upon good interstates. There are several interstate widening projects that are more than a decade past due producing major pinch-points in the movement of freight in the state. We have established an aggressive interstate widening program to target bottlenecks in urban areas and key rural sections needed for freight movement. ***Our ten-year objective of improving 140 miles of interstates is on target with approximately 80 miles completed or advanced to construction.***

SCDOT Leadership is committed to transparency and accountability. Every month, SCDOT publishes an account statement, list of projects and a check register for the new gas tax trust fund. (Check info at: [www.scdot.org](http://www.scdot.org) .)

Millions travel on SC state roads each day and with that large number is the huge responsibility of safety for the motoring public. In some instances the SCDOT Claims Office is included and has responsibilities to: (1) investigate and evaluate damage claims and lawsuits filed against SCDOT, and (2) coordinate with the S.C. Insurance Reserve Fund in defending damage claims and lawsuits against SCDOT. The claims listed below are by calendar year and are fluid since claims can be made up to one year after an incident. Additionally, the amounts do not include any claims paid by the SC Insurance Reserve Fund on SCDOT’s behalf.

<b><u>CALENDAR YEAR</u></b>	<b><u>TOTAL NUMBER OF CLAIMS</u></b>	<b><u>AMOUNT PAID</u></b>
2014	2546	\$713,610.16
2015	2257	\$545,553.62

2016	3707	\$689,617.16
2017	2295	\$397,961.07
2018	1085	\$135,568.43
2019	3541	\$702,688.53
2020	3161	\$ 627,615.85

**SECTION III- 5-Year Plan Detailing Traffic Regulation**

In response to Act 181 of 1993 (also known as the 1993 Restructuring Act), the SC Highway Department was separated into the Department of Public Safety, the Department of Motor Vehicles, and the Department of Transportation. Pursuant to Section 1507 of ACT 181, the duties and powers relating to highways do not contain traffic regulations (including administration and enforcement of traffic, driver, and motor vehicle laws) and are therefore, not the responsibility of SCDOT.

**SECTION IV- Firms, Companies, & Businesses with Contracts**

The following are lists by five (5) categories of all firms, companies, or businesses that did business with the South Carolina Department of Transportation for FY 2020 (July 1, 2019 – June 30, 2020). Vendor Payments (pg. 7) include all payments for goods and services made during FY 2020. The Construction Contracts (pg. 76) are agreements for the construction, maintenance and improvement of the state highway system. Capital Improvements Contracts (pg. 82) are contracts related to the construction, renovation or maintenance of SCDOT facilities. Commodities and Services Contracts (pg. 83) are for goods and general services. Professional Services Contracts (pg. 97) are agreements with consultant firms for architectural and engineering related services for the construction and maintenance of South Carolina state roads and bridges. *The vendor numbers and names represented on the following lists were extracted directly from the South Carolina Enterprise System (SCEIS).*

**Vendor Payments:**

SCEIS Vendor Number	Vendor	FY20 Amount
7000275092	Archer United JV	\$ 96,842,834.09
